

Standard Guide for Use of Certification of Coating Conformance Form¹

This standard is issued under the fixed designation D5063; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reapproval. A superscript epsilon (ϵ) indicates an editorial change since the last revision or reapproval.

1. Scope

1.1 This certification of coating conformance form provides procurement information concerning products being furnished in accordance with a specific coating specification and additional requirements contained in the purchase order (see Fig. 1).

1.2 The completed form can be utilized to help evaluate the acceptability of the paint being furnished.

2. Referenced Documents

2.1 ASTM Standards:

[D16 Terminology for Paint, Related Coatings, Materials, and Applications](#)²

¹ This guide is under the jurisdiction of ASTM Committee D01 on Paint and Related Coatings, Materials, and Applications and is the direct responsibility of Subcommittee D01.45 on Marine Coatings.

Current edition approved June 1, 2012. Published August 2012. Originally approved in 1990. Last previous edition approved in 2004 as D5063 – 90 (2004). DOI: 10.1520/D5063-90R12.

² For referenced ASTM standards, visit the ASTM website, www.astm.org, or contact ASTM Customer Service at service@astm.org. For *Annual Book of ASTM Standards* volume information, refer to the standard's Document Summary page on the ASTM website.

3. Instructions for Completing Certification Form

3.1 Use only known and industry accepted descriptions. Standard definitions of terms relating to paint, varnish, lacquer, and related materials are provided in Terminology D16 (see Fig. 2

3.2 The sections are self-explanatory. Applicable information in Section II should be provided by the buyer. Applicable information in Section III should be provided by the seller.

3.3 For two-component coatings, separate forms should be provided for each component, if appropriate.

4. Keywords

4.1 certification form; conformance form

CERTIFICATION OF COATING CONFORMANCE FORM

Number:
Date:

I. GENERAL TYPE AND DESCRIPTION:

Generic Type:
Manufacturer's Designation:
Specification Number:
Formula Number:
Number of Components:
Component Identification (if applicable):
Color:

II. BUYER INFORMATION:

Name and Address:

Purchase Order Number:
Release Number (if applicable):
Part Number (if applicable):
Item Number (if applicable):
Stock Number (if applicable):

III. SELLER INFORMATION:

Name and Address:

Seller's Representative:
(Include Telephone Number)
Batch Number:
Lot No.:
Date of Manufacture:
Date of Expiration of Certification:

IV. CERTIFICATION:

This is to certify that the above material being furnished has been manufactured in accordance with the specification and meets all specification requirements contained in the above purchase order.

FIG. 1 Certification Form

CERTIFICATION OF CONFORMANCE FORM Number: A001
 Date: 6/26/88

I. GENERAL TYPE AND DESCRIPTION:		
Generic Type:	Polyamide Epoxy	
Manufacturer's Designation:	Perfect Paint 1234	
Specification Number:	MIL-P-24441	
Formula Number:	Formula 150	
Number of Components:	Two	
Component Identification:	Component A	
Color:	Green	
II. BUYER INFORMATION:		
Name and Address:	American Shipbuilders 1234 Easy St. Anytown, USA	
Purchase Order Number:	0001-0002	
Release Number (if applicable):	#1	
Part Number (if applicable):	11B	
Item Number (if applicable):	#3	
Stock Number (if applicable):	4321	
III. SELLER INFORMATION:		
Name and Address:	Perfect Paint Co. 11 Profit St. Paint City, USA	
Seller's Representative: (Include Telephone Number)	I.B. Responsive 703/123-4567	
Batch Number:	88-F-01	
Lot Number:	0001	
Date of Manufacture:	6/20/88	
Date of Expiration of Certification:	6/19/89	
IV. CERTIFICATION:		
This is to certify that the above material being furnished has been manufactured in accordance with the specification and meets all specification requirements contained in the above purchase order.

ASTM International takes no position respecting the validity of any patent rights asserted in connection with any item mentioned in this standard. Users of this standard are expressly advised that determination of the validity of any such patent rights, and the risk of infringement of such rights, are entirely their own responsibility.

This standard is subject to revision at any time by the responsible technical committee and must be reviewed every five years and if not revised, either reapproved or withdrawn. Your comments are invited either for revision of this standard or for additional standards and should be addressed to ASTM International Headquarters. Your comments will receive careful consideration at a meeting of the responsible technical committee, which you may attend. If you feel that your comments have not received a fair hearing you should make your views known to the ASTM Committee on Standards, at the address shown below.
