

Designation: F3245 – 17

Standard Guide for Aircraft Electronics Technician Personal Certification¹

This standard is issued under the fixed designation F3245; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reappraisal. A superscript epsilon (ϵ) indicates an editorial change since the last revision or reappraisal.

1. Scope

1.1 The purpose of this guide is to address the basic fundamental subject knowledge, task performance, and task knowledge activities and functions for avionics professionals to be titled Aircraft Electronics Technicians (AETs).

1.2 *This standard does not purport to address all of the safety concerns, if any, associated with its use. It is the responsibility of the user of this standard to establish appropriate safety and health practices and determine the applicability of regulatory limitations prior to use.*

2. Referenced Documents

2.1 *ASTM Standards:*²

[F3060 Terminology for Aircraft](#)

2.2 *FAA Standards:*³

[FAA AC43.13-1B Acceptable Methods, Techniques, and Practices – Aircraft Inspection and Repair \(with Change 1\)](#)

[FAA AC43.13-2B Acceptable Methods, Techniques, and Practices – Aircraft Alterations](#)

[FAA Federal Aviation Regulations for Aviation Maintenance Technicians](#)

[FAA-H-8083-30 Aviation Maintenance Technician Handbook – General](#)

[FAA-H-8083-30 Aviation Maintenance Technician Handbook – Airframe Volume 1](#)

[FAA-H-8083-30 Aviation Maintenance Technician Handbook – Airframe Volume 2](#)

3. Terminology

3.1 See Terminology [F3060](#).

¹ This guide is under the jurisdiction of ASTM Committee F46 on Aerospace Personnel and is the direct responsibility of Subcommittee F46.02 on Avionics and Information Technology Endorsements.

Current edition approved March 1, 2017. Published March 2017. DOI: 10.1520/F3245-17.

² For referenced ASTM standards, visit the ASTM website, www.astm.org, or contact ASTM Customer Service at service@astm.org. For *Annual Book of ASTM Standards* volume information, refer to the standard's Document Summary page on the ASTM website.

³ Available from Federal Aviation Administration (FAA), 800 Independence Ave., SW, Washington, DC 20591, <http://www.faa.gov>.

3.2 See [Table 1](#) for task and knowledge definitions relating to the education requirements for Aircraft Electronics Technician (AET) professionals.

3.3 *Explanations for Task Knowledge and Subject Knowledge Levels:*

3.3.1 A task knowledge scale value may be used alone or with a task performance scale value to define a level of knowledge for a specific task. (Example: b and 1b)

3.3.2 A subject knowledge scale value is used alone to define a level of knowledge for a subject not directly related to any specific task, or for a subject common to several tasks.

4. Significance and Use

4.1 The guide is intended to be used to assess competencies of qualified individuals who wish to become certified as an Aircraft Electronics Technician through a certification program.

4.2 The guide is intended to be used in concert with a certification provider's structure and materials for management, exam delivery, and candidate preparation.

5. Test Knowledge Requirements

5.1 The following subject, performance, and task knowledge areas shall be assessed by levels (referenced in [Table 1](#)) of competency in the exam items.

5.2 *Introductory and General Requirements:*

5.2.1 *Direct Current (DC) Basic Terms*—Knows and can identify the relationship of basic facts and state general principles about “Direct Current.” The following is a minimum list of terms associated with this subject. (ref. [Table 1](#), Level B)

5.2.1.1 Ampere,

5.2.1.2 Battery,

5.2.1.3 Capacitor,

5.2.1.4 Conductor,

5.2.1.5 Coulomb,

5.2.1.6 Current,

5.2.1.7 Direct Current,

5.2.1.8 Electron,

5.2.1.9 EMF,

5.2.1.10 Farad,

5.2.1.11 Henry,

5.2.1.12 Inductor,

5.2.1.13 Insulator,

TABLE 1 Task and Knowledge Levels

Scale Value	Definition: The Individual
Task Performance Levels	1 IS LIMITED. (Can do simple parts of the task. Needs to be told or shown how to do most of the task)
	2 IS PARTIALLY PROFICIENT. (Can do most parts of the task. Needs only help on hardest parts.)
	3 IS COMPETENT. (Can do all parts of the task. Needs only a spot check of completed work.)
	4 IS PROFICIENT. (Can do the complete task quickly and accurately. Can tell or show others how to do the task.)
Task Knowledge Levels	a KNOWS NOMENCLATURE. (Can name parts, tools, and simple facts about the task.)
	b KNOWS PROCEDURES. (Can determine step-by-step procedures for doing the task.)
	c KNOWS OPERATING PRINCIPLES. (Can identify why and when the task must be done and why each step is needed.)
	d KNOWS ADVANCED THEORY. (Can predict, isolate, and resolve problems about the task.)
Subject Knowledge Levels	A KNOWS FACTS. (Can identify basic facts and terms about the subject.)
	B KNOWS PRINCIPLE. (Can identify relationship of basic facts and state general principles about the subject.)
	C KNOWS ANALYSIS. (Can analyze facts and principles and draw conclusions about the subject.)
	D KNOWS EVALUATION. (Can evaluate conditions and make proper decisions about the subject.)

- 5.2.1.14 Left-Hand Rule,
- 5.2.1.15 Magnetic Permeability,
- 5.2.1.16 Magnetism,
- 5.2.1.17 Metric Prefixes,
- 5.2.1.18 Neutron,
- 5.2.1.19 Ohm,
- 5.2.1.20 Proton,
- 5.2.1.21 Resistance,
- 5.2.1.22 Scientific Notation,
- 5.2.1.23 Static Electricity,
- 5.2.1.24 Volt, and
- 5.2.1.25 Watts.

5.2.2 *Alternating Current (AC) Basic Terms*—Knows and can identify the relationship of basic facts and state general principles about “Alternative Current.” The following is a minimum list of terms associated with this subject. (ref. [Table 1](#), Level B)

- 5.2.2.1 Alternating Current,
- 5.2.2.2 Apparent Power,
- 5.2.2.3 Capacitive Reactance,
- 5.2.2.4 Delta Wound,
- 5.2.2.5 Effective Voltage,
- 5.2.2.6 Frequency,
- 5.2.2.7 Impedance,
- 5.2.2.8 Inductive Reactance,
- 5.2.2.9 Phase,
- 5.2.2.10 Polyphase,
- 5.2.2.11 Power Factor,
- 5.2.2.12 Rectifier,
- 5.2.2.13 Resistance,
- 5.2.2.14 RMS,
- 5.2.2.15 Sine Wave,
- 5.2.2.16 True Power, and
- 5.2.2.17 Wye Wound.

5.2.3 *Basic Circuit Theory of Operation*—Knows and can identify the relationship of basic facts and state general principles about “Basic Circuit Theory of Operation.” The following is a minimum list of terms associated with this subject. (ref. [Table 1](#), Level B)

- 5.2.3.1 Amps,
- 5.2.3.2 Bridge Circuits,
- 5.2.3.3 Complex Circuits,
- 5.2.3.4 Joules,
- 5.2.3.5 Kirchhoff’s Law,
- 5.2.3.6 Ohm’s Law,

- 5.2.3.7 Parallel Circuits,
- 5.2.3.8 Power,
- 5.2.3.9 Resistance,
- 5.2.3.10 Resistors in Parallel Circuits,
- 5.2.3.11 Resistors in Series Circuits,
- 5.2.3.12 Series Circuits,
- 5.2.3.13 Voltage Drop,
- 5.2.3.14 Volts, and
- 5.2.3.15 Watts.

5.2.4 *Basic Circuit Troubleshooting*—Partially proficient in the performance task of “Basic Circuit Troubleshooting.” Able to do most parts of the task and will need help only on the hardest parts. Know the task procedures, and can determine the step-by-step procedures for doing the task. The following is a minimum list of terms associated with the task. (ref. [Table 1](#), Level 2b)

- 5.2.4.1 Troubleshooting Theory,
- 5.2.4.2 Basic Circuits,
- 5.2.4.3 Complex Circuit Voltage Drop,
- 5.2.4.4 Kirchhoff’s Law,
- 5.2.4.5 Parallel Circuit,
- 5.2.4.6 Resistors in Parallel Circuits,
- 5.2.4.7 Resistors in Series Circuits, and
- 5.2.4.8 Series Circuit.

5.2.5 *Basic Circuit Calculations*—Knows and can identify the relationship of basic facts and state general principles about “Basic Circuit Calculations.” The following is a minimum list of terms associated with this subject. (ref. [Table 1](#), Level B)

- 5.2.5.1 Alternating Current AC,
 - (1) Apparent Power
 - (2) Capacitance,
 - (3) Capacitive Reactance,
 - (4) Effective (working) Voltage,
 - (5) Frequency,
 - (6) Impedance,
 - (7) Inductance,
 - (8) Inductive Reactance,
 - (9) Peak Voltage,
 - (10) Period,
 - (11) Phase Angle,
 - (12) Power Factor,
 - (13) Resonance, and
 - (14) True Power.
- 5.2.5.2 Direct Current DC
 - (1) Amps,

- (2) Ohms,
- (3) Volts, and
- (4) Watts.

5.2.6 *DC / AC Basic Circuit Measurements*—Partially proficient in the performance task of “DC / AC Basic Circuit Measurements.” Able to do most parts of the task and will need help only on the hardest parts. Know the task procedures, and can determine the step-by-step procedures for doing the task. The following is a minimum list of terms associated with this task. (ref. [Table 1](#), Level 2b)

- 5.2.6.1 Ammeters,
- 5.2.6.2 Ohmmeters,
- 5.2.6.3 Oscilloscopes, and
- 5.2.6.4 Voltmeters.

5.2.7 *Resistor / Theory of Operation*—Knows and can identify the relationship of basic facts and state general principles related to (ref. [Table 1](#), Level B):

- 5.2.7.1 Theory of operation,
- 5.2.7.2 Construction, and
- 5.2.7.3 The use of color codes to identify resistor/resistance values.

5.2.8 *Resistor / Fault Isolation*—Partially proficient in the performance task of “Resistor / Fault Isolation.” Able to do most parts of the task and will need help only on the hardest parts. Know the task procedures, and can determine the step-by-step procedures for doing the task. The following is a minimum list of terms associated with this task. (ref. [Table 1](#), Level 2b)

- 5.2.8.1 Improperly Installed Resistors,
- 5.2.8.2 Open Resistors,
- 5.2.8.3 Resistors of Incorrect Value, and
- 5.2.8.4 Shorted Resistors.

5.2.9 *Inductors*—Knows and can identify the relationship of basic facts and state general principles about “Inductors.” The following is a minimum list of terms associated with this subject. (ref. [Table 1](#), Level B)

- 5.2.9.1 Theory of Operation,
- 5.2.9.2 Calculation of Inductive Reactance,
- 5.2.9.3 Correct Operation of Inductors (coils), and
- 5.2.9.4 Use of Multiple Inductors.

5.2.9.5 *Isolate Faulty Inductors*—Partially proficient in the performance task of “Resistor / Fault Isolation.” Able to do most parts of the task and will need help only on the hardest parts. Know the task procedures, and can determine the step-by-step procedures for doing the task. The following is a minimum list of terms associated with this task. (ref. [Table 1](#), Level 2b)

- 5.2.9.6 Improperly Installed Inductors,
- 5.2.9.7 Open Inductors, and
- 5.2.9.8 Shorted inductors.

5.2.10 *Capacitor / Theory of Operation*—Knows and can identify the relationship of basic facts and state general principles about “Capacitor Theory of Operation.” The following is a minimum list of terms associated with this subject. (ref. [Table 1](#), Level B)

- 5.2.10.1 Calculation of Capacitive Reactance,
- 5.2.10.2 Operation of Capacitors,
- 5.2.10.3 Dielectric,

- 5.2.10.4 Electrolytic,
- 5.2.10.5 Farad,
- 5.2.10.6 Fixed Capacitors,
- 5.2.10.7 Time Constants,
- 5.2.10.8 Use of multiple Capacitors, and
- 5.2.10.9 Variable Capacitors.

5.2.11 *Capacitor / Fault Isolation*—Partially proficient in the performance task of “Capacitor / Fault Isolation.” Able to do most parts of the task and will need help only on the hardest parts. Know the task procedures, and can determine the step-by-step procedures for doing the task. The following is a minimum list of terms associated with this task. (ref. [Table 1](#), Level 2b)

- 5.2.11.1 Improperly Installed Capacitors,
- 5.2.11.2 Open Capacitors, and
- 5.2.11.3 Shorted Capacitors.

5.2.12 *Transformer / Theory of Operation*—Knows and can identify the relationship of basic facts and state general principles about “Transformer Theory of Operation.” The following is a minimum list of terms associated with this subject. (ref. [Table 1](#), Level B)

- 5.2.12.1 Counter EMF,
- 5.2.12.2 Eddy Currents,
- 5.2.12.3 Hysteresis, and
- 5.2.12.4 Primary Winding.

5.2.13 *Transformer / Fault Isolation*—Partially proficient in the performance task of “Transformer / Fault Isolation.” Able to do most parts of the task and will need help only on the hardest parts. Know the task procedures, and can determine the step-by-step procedures for doing the task. The following is a minimum list of terms associated with this task. (ref. [Table 1](#), Level 2b)

- 5.2.13.1 Improperly Installed Transformers,
- 5.2.13.2 Open or Shorted Primary Coil,
- 5.2.13.3 Primary and Secondary Resistance Testing, and
- 5.2.13.4 Secondary Coil.

5.2.14 *Analog Circuits, Devices, and Switches*—Knows and can identify the relationship of basic facts and state general principles about “Analog Circuits, Devices, and Switches.” The following is a minimum list of terms associated with this subject. (ref. [Table 1](#), Level B)

- 5.2.14.1 Derating Factor,
- 5.2.14.2 DPDT,
- 5.2.14.3 DPST,
- 5.2.14.4 Micro Switch,
- 5.2.14.5 Normally Closed (contacts),
- 5.2.14.6 Normally Open (contacts),
- 5.2.14.7 Proximity Switches,
- 5.2.14.8 Push Button Switches,
- 5.2.14.9 Relays,
- 5.2.14.10 Rocker,
- 5.2.14.11 Rotary,
- 5.2.14.12 Solenoids,
- 5.2.14.13 SPDT,
- 5.2.14.14 Switches, and
- 5.2.14.15 Toggle.

5.2.15 *Power Supply Circuit / Rectifiers*—Knows and can identify the relationship of basic facts and state general

principles about “Power Supply Circuit / Rectifiers.” The following is a minimum list of terms associated with this subject. (ref. **Table 1**, Level B)

- 5.2.15.1 Diode,
- 5.2.15.2 Forward Bias,
- 5.2.15.3 Full-Wave Rectifier,
- 5.2.15.4 Germanium,
- 5.2.15.5 Half-Wave Rectifier,
- 5.2.15.6 Reverse Bias,
- 5.2.15.7 Ripple Amplitude,
- 5.2.15.8 Silicon,
- 5.2.15.9 Solid-State,
- 5.2.15.10 Three Phase Rectifier,
- 5.2.15.11 Switching Regulators (voltage converter),
- 5.2.15.12 Types and Components used, and
- 5.2.15.13 Use of Power Supply Circuits.

5.2.16 *Power Supply Circuit / Filters*—Can identify basic facts and terminology about “Power Supply Circuit / Filters.” The following is a minimum list of terms associated with this subject. (ref. **Table 1**, Level A)

- 5.2.16.1 Active Filters, and
- 5.2.16.2 Passive Filters.

5.2.17 *Frequency Sensitive Filter – Theory of Operation*—Can identify basic facts and terminology about “Frequency Sensitive Filter – Theory of Operation.” The following is a minimum list of terms associated with this subject. (ref. **Table 1**, Level A)

- 5.2.17.1 Band-Pass,
- 5.2.17.2 Band-Reject,
- 5.2.17.3 Cutoff Frequency,
- 5.2.17.4 Demodulation,
- 5.2.17.5 Detection,
- 5.2.17.6 Filtering,
- 5.2.17.7 High-Pass,
- 5.2.17.8 Low-Pass,
- 5.2.17.9 Tuning Circuit, and
- 5.2.17.10 Use of Crystals.

5.2.18 *Wave Generation Circuits*—Can identify basic facts and terminology about “Wave Generation Circuits.” The following is a minimum list of terms associated with this subject. (ref. **Table 1**, Level A)

- 5.2.18.1 Oscillators:
 - (1) Crystal-Controlled Oscillators,
 - (2) Hartley Oscillator,
 - (3) LC Tank,
 - (4) Oscillators, and
 - (5) Regenerative Feedback Path.

- 5.2.18.2 Waveshaping Circuits:
 - (1) A-stable Multivibrator,
 - (2) Bi-stable Multivibrator,
 - (3) Crystal-Controlled Oscillators,
 - (4) LC Tank,
 - (5) Mono-stable Multivibrator, and
 - (6) Oscillator.

5.2.19 *Limiting Circuits*—Knows and can identify the relationship of basic facts and state general principles about “Limiting Circuits.” The following is a minimum list of terms associated with this subject. (ref. **Table 1**, Level B)

5.2.19.1 Diodes:

- (1) Forward Bias,
- (2) Proper use and Installation,
- (3) Reverse Bias, and
- (4) Schematic Diagram Symbol.

5.2.19.2 Zener Diodes:

- (1) Proper use and Installation, and
- (2) Schematic Diagram Symbol.

5.2.19.3 Transistors:

- (1) Base Current,
- (2) Bipolar,
- (3) Collector Base Junction,
- (4) Collector Current,
- (5) Emitter Base Junction,
- (6) Emitter Current,
- (7) NPN,
- (8) PNP,
- (9) Polarity of Connections,
- (10) Proper use and Installation, and
- (11) Schematic Diagram Symbols.

5.2.20 *Digital Numbering System*—Knows and can identify the relationship of basic facts and state general principles about “Digital Numbering Systems.” The following is a minimum list of terms associated with this subject. (ref. **Table 1**, Level B)

5.2.20.1 Binary:

- (1) Base 2,
- (2) Conversion from/to decimal, octal, and hexadecimal,
- (3) Digital Signal,
- (4) One, and
- (5) Zero.

5.2.20.2 Octal:

- (1) Base 8,
- (2) Conversion from/to binary and decimal,
- (3) Octal Notation, and
- (4) Triad.

5.2.20.3 Hexadecimal:

- (1) Base 16,
- (2) Conversion from/to binary and decimal, and
- (3) Letter designations A through F.

5.2.21 *Digital Logic Functions*—Knows and can identify the relationship of basic facts and state general principles about “Digital Logic Functions.” The following is a minimum list of terms associated with this subject. (ref. **Table 1**, Level B)

5.2.21.1 Main Logic Gates:

- (1) AND,
- (2) Display of Digital Data,
- (3) Exclusive OR,
- (4) INVERT,
- (5) Logic Gates,
- (6) NAND,
- (7) NOR,
- (8) OR,
- (9) Positive and Negative Logic,
- (10) Proper use and Installation, and
- (11) Truth Tables.

5.2.21.2 Flip-Flops:

- (1) Advantages of Flip-Flops,
- (2) Asynchronous/Synchronous Flip-Flop,

- (3) Clock Pulse,
- (4) Data-Type Latch,
- (5) JK Flip-Flop,
- (6) Toggle (T), and
- (7) RS Latch.

5.2.21.3 Counters:

- (1) Adder and Subtractor Circuits,
- (2) Asynchronous,
- (3) Counter Triggering Method,
- (4) Frequency Division Characteristics,
- (5) Full-Adder,
- (6) Half-Adder,
- (7) Subtractor, and
- (8) Synchronous.

5.2.21.4 Adder:

- (1) Full-Adder, and
- (2) Half-Adder.

6. Core Competencies – Common Maintenance Practices, Fundamentals of On-Equipment Maintenance and Aircraft Fundamentals

6.1 *Hazards / Safety Practices*—Knows and can identify the relationship of basic facts and state general principles about “Hazardous / Safety Practices.” The following is a minimum list of terms associated with this subject. (ref. [Table 1](#), Level B)

- 6.1.1 RF Energy,
- 6.1.2 Noise,
- 6.1.3 Electrical Power:
 - 6.1.3.1 Circuit Protection Devices,
 - 6.1.3.2 Elimination/Termination of circuit power,
 - 6.1.3.3 ESD Protection, and
 - 6.1.3.4 Microwave.
- 6.1.4 Hazardous Liquids:
 - 6.1.4.1 Solvents:
 - (1) Acetone, and
 - (2) MEK.
 - 6.1.4.2 Cleaners and caustic solutions used in electronics,
 - 6.1.4.3 How to obtain proper Safety Data Sheet (SDS) information,
- 6.1.5 First Aid and CPR,
- 6.1.6 Electrical Shock:
 - 6.1.6.1 First response, and
 - 6.1.6.2 First Aid for electrical shock.

6.2 *Hazardous Materials Handling*—Can identify basic facts and terms about “Hazardous Materials Handling.” The following is a minimum list of terms associated with this subject. (ref. [Table 1](#), Level A)

- 6.2.1 Globally Harmonized System (GHS):
 - 6.2.1.1 Handling Procedures,
 - 6.2.1.2 Safety Data Sheet (SDS),
 - 6.2.1.3 Proper Disposal,
 - 6.2.1.4 Storage & Labeling, and
 - 6.2.1.5 Types of Hazardous Materials / Fluids.

6.3 *FOD Prevention*—Can identify basic facts and terms about “FOD Prevention.” The following is a minimum list of terms associated with this subject. (ref. [Table 1](#), Level A)

- 6.3.1 Foreign Object Elimination (FOE),
- 6.3.2 Housekeeping, and

6.3.3 Tool Control and Management.

6.4 *Technical Publications*—Knows and can identify the relationship of basic facts and state general principles about “Technical Publications.” The following is a minimum list of terms associated with this subject. (ref. [Table 1](#), Level B)

- 6.4.1 Interpret Installation and Service Manuals,
- 6.4.2 Recognize and understand notes, cautions, and warnings,
- 6.4.3 Interpret Technical Data:
 - 6.4.3.1 Block Diagrams,
 - 6.4.3.2 Pictorial Diagrams,
 - 6.4.3.3 Schematic Diagrams, and
 - 6.4.3.4 Wiring Diagrams.
- 6.4.4 Locate and Interpret Avionics Installation Data:
 - 6.4.4.1 Aircraft Equipment Lists,
 - 6.4.4.2 Aircraft Maintenance Records,
 - 6.4.4.3 Aircraft Weight and Balance,
 - 6.4.4.4 Approved Flight Manual Supplements,
 - 6.4.4.5 Supplemental Type Certificates (STCs),
 - 6.4.4.6 Interpret Wiring Diagrams,
 - 6.4.4.7 Interpret Charts, Blueprints, Drawing, and Sketches, and
 - 6.4.4.8 Interpret Aircraft Equipment List Information.

6.5 *Use of Common Tools*—Partially proficient in the performance task of “Use of Common Tools.” Able to do most parts of the task and will need help only on the hardest parts. Knows the task procedures, and can determine the step-by-step procedures for doing the task. The following is a minimum list of terms associated with this task. (ref. [Table 1](#), Level 2b)

- 6.5.1 General Purpose Tools, their use, care, control, and calibration:
 - 6.5.1.1 Hammers / Mallets,
 - 6.5.1.2 Screwdrivers,
 - 6.5.1.3 Pliers / Plier Type Cutting Tools,
 - 6.5.1.4 Punches, and
 - 6.5.1.5 Wrenches / Special Wrenches.
- 6.5.2 Metal Cutting Tools:
 - 6.5.2.1 Hand Snips,
 - 6.5.2.2 Files,
 - 6.5.2.3 Drills,
 - 6.5.2.4 Twist Drills, and
 - 6.5.2.5 Reamers.
- 6.5.3 Layout and Measuring Tools:
 - 6.5.3.1 Scales,
 - 6.5.3.2 Tapes, and
 - 6.5.3.3 Dividers.
- 6.5.4 Soldering Iron / Gun,
- 6.5.5 Crimping Tools,
- 6.5.6 Stripping Tools, and
- 6.5.7 Magnifiers.

6.6 *Handling Electrostatic Devices*—Knows and can identify the relationship of basic facts and state general principles about “Handling Electrostatic Devices.” The following is a minimum list of terms associated with this subject. (ref. [Table 1](#), Level B)

- 6.6.1 Recognizing and preventing damage to electronic components due to ESD.

6.7 *Identify and Perform Corrosion Control*—Partially proficient in the performance task of “Identify and Perform Corrosion Control.” The individual will be able to do most parts of the task and will need help only on the hardest parts. Knows the task procedures, and can determine the step-by-step procedures for doing the task. The following is a minimum list of terms associated with this task. (ref. [Table 1](#), Level 2b)

- 6.7.1 Exfoliation,
- 6.7.2 Galvanic/Dissimilar metal,
- 6.7.3 Intergranular, and
- 6.7.4 Pitting.

6.8 *Use of Safety Devices*—Limited in the performance task of “Use of Safety Devices.” Able to do simple parts of the task. Needs to be told or shown how to do most of the task. Can name parts, tools, and simple facts about the task. The following is a minimum list of devices associated with this task. (ref. [Table 1](#), Level 1a)

- 6.8.1 Safety Wire:
 - 6.8.1.1 Acceptable Safety Wire Practices,
 - 6.8.1.2 All Types of Safety Devices, and
 - 6.8.1.3 Types and Sizes of Safety Wire.
- 6.8.2 Shear Wire.

6.9 *Aircraft Wiring*—Can analyze facts and principles and draw conclusions about “Aircraft Wiring.” The following is a minimum list of terms associated with this subject. (ref. [Table 1](#), Level C)

- 6.9.1 Coaxial Cables,
- 6.9.2 Databus (Multiplex) Cables,
- 6.9.3 Multiconductor,
- 6.9.4 Single Conductor, and
- 6.9.5 Twisted shielded/unshielded wire.

6.10 *Perform Wire Maintenance*—Competent in the performance task of “Performance of Wire Maintenance.” Able to do all parts of the task and will need only a spot check of completed work. Knows the operating principles used with this guide, and can identify why and when the task must be done and why each step is needed. The following is a minimum list of performance items associated with this task. (ref. [Table 1](#), Level 3c)

- 6.10.1 Cutting Wire/Cable,
- 6.10.2 Wire Stripping,
- 6.10.3 Splicing,
- 6.10.4 Connecting Terminals,
- 6.10.5 Connecting Terminals to Terminal Blocks,
- 6.10.6 Bonding and Grounding,
- 6.10.7 Conduit,
- 6.10.8 Continuity Checks,
- 6.10.9 Wire Bundles:
 - 6.10.9.1 Lacing/Typing/Zip Tying,
 - 6.10.9.2 Clamping and Securing, and
 - 6.10.9.3 Routing/Separation.
- 6.10.10 Wiring Inspections, and
- 6.10.11 Wire Termination:
 - 6.10.11.1 Crimping, and
 - 6.10.11.2 Soldering.

6.11 *Use of Test Equipment / Special Tools*—Partially proficient in the performance task of “Use of Test Equipment / Special Tools.” Able to do most parts of the task and will need help only on the hardest parts. Knows the task procedures, and can determine the step-by-step procedures for doing the task. (ref. [Table 1](#), Level 2b)

- 6.11.1 Analog Multimeter,
- 6.11.2 Continuity Tester,
- 6.11.3 Digital Multimeter,
- 6.11.4 Oscilloscope,
- 6.11.5 Milli-Ohm Meter, and
- 6.11.6 Megohmmeter.

6.12 *Aircraft Structures*—Knows and can identify the relationship of basic facts and state general principles about “Aircraft Structures.” The following is a minimum list of terms associated with this subject. (ref. [Table 1](#), Level B)

- 6.12.1 Terminology:
 - 6.12.1.1 Fuselage,
 - 6.12.1.2 Wings,
 - 6.12.1.3 Powerplant (reciprocating, turbine),
 - 6.12.1.4 Empennage Components,
 - 6.12.1.5 Internal and External Bracing for Structural Integrity,
 - 6.12.1.6 Streamlining and drag reduction for airframes and structures,
 - 6.12.1.7 Aircraft axis and controls,
 - 6.12.1.8 Basic avionics and information systems, and
 - 6.12.1.9 Aerodynamic Forces.
- 6.12.2 Flight Controls:
 - 6.12.2.1 Flight Controls (primary, secondary, auxiliary), and
 - 6.12.2.2 Theory of Flight (that is, Bernoulli’s Principle, Newton’s Laws of Motion, airfoils, forces that act on the aircraft in flight).

6.13 *Aircraft Handling and Safety*—Knows and can identify the relationship of basic facts and state general principles about “Aircraft Handling and Safety.” The following is a minimum list of terms associated with this subject. (ref. [Table 1](#), Level B)

- 6.13.1 Ground Operation and Safety:
 - 6.13.1.1 Aircraft pre- and post-flight inspection,
 - 6.13.1.2 Ground Movement of Aircraft, and
 - 6.13.1.3 Storage and Aircraft (that is, preparation for and removal from storage).
- 6.13.2 Operations Risk Management / Personal Protective Equipment (PPE) including Fall Protection:
 - 6.13.2.1 EPA/international environmental protection agencies.
 - 6.13.2.2 OSHA/international safety regulatory agencies.

7. Pre-Requisite Requirements

- 7.1 There are no pre-requisites for the AET certification.

8. Body of Knowledge

9. Keywords

9.1 AET; aircraft electronics technician; avionics technician; certification; NCATT; personnel; repairman’s certificate

ASTM International takes no position respecting the validity of any patent rights asserted in connection with any item mentioned in this standard. Users of this standard are expressly advised that determination of the validity of any such patent rights, and the risk of infringement of such rights, are entirely their own responsibility.

This standard is subject to revision at any time by the responsible technical committee and must be reviewed every five years and if not revised, either reapproved or withdrawn. Your comments are invited either for revision of this standard or for additional standards and should be addressed to ASTM International Headquarters. Your comments will receive careful consideration at a meeting of the responsible technical committee, which you may attend. If you feel that your comments have not received a fair hearing you should make your views known to the ASTM Committee on Standards, at the address shown below.

This standard is copyrighted by ASTM International, 100 Barr Harbor Drive, PO Box C700, West Conshohocken, PA 19428-2959, United States. Individual reprints (single or multiple copies) of this standard may be obtained by contacting ASTM at the above address or at 610-832-9585 (phone), 610-832-9555 (fax), or service@astm.org (e-mail); or through the ASTM website (www.astm.org).
