**Aerospace series — Heat
resisting nickel base alloy
NiCr20Co3Fe3 — Annealed —
Wire — $D \leq 10$ mm**

bsi.

...making excellence a habit.™

National foreword

This British Standard is the UK implementation of EN 2402:2014.

The UK participation in its preparation was entrusted to Technical Committee ACE/61/-/48, Heat Resisting Alloys for Aerospace Purposes.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

English Version

**Aerospace series - Heat resisting nickel base alloy
NiCr20Co3Fe3 - Annealed - Wire - $D \leq 10$ mm**

Série aérospatiale - Alliage résistant à base de nickel
NiCr20Co3Fe3 - Requit - Fil - $D \leq 10$ mm

Luft- und Raumfahrt - Hochwarmfeste Nickelbasislegierung
NiCr20Co3Fe3 - Geglüht - Draht - $D \leq 10$ mm

This European Standard was approved by CEN on 27 December 2013.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and United Kingdom.

Foreword

This document (EN 2402:2014) has been prepared by the Aerospace and Defence Industries Association of Europe - Standardization (ASD-STAN).

After enquiries and votes carried out in accordance with the rules of this Association, this Standard has received the approval of the National Associations and the Official Services of the member countries of ASD, prior to its presentation to CEN.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by October 2014, and conflicting national standards shall be withdrawn at the latest by October 2014.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN [and/or CENELEC] shall not be held responsible for identifying any or all such patent rights.

According to the CEN-CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.

Introduction

This standard is part of the series of EN metallic material standards for aerospace applications. The general organization of this series is described in EN 4258.

This standard has been prepared in accordance with EN 4500-003.

1 Scope

This European Standard specifies the requirements relating to:

Heat resisting nickel base alloy NiCr20Co3Fe3
Annealed
Wire
 $D \leq 10$ mm

for aerospace applications.

NOTE Other designation:
Only the chemical composition of this standard must be considered.

2 Normative references

The following documents, in whole or in part, are normatively referenced in this document and are indispensable for its application. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

EN 2043, *Aerospace series - Metallic materials - General requirements for semi-finished product qualification (excluding forgings and castings)*.

EN 3238, *Aerospace series - Metallic materials - Test method - Shear test for wires and rivets*

EN 4258, *Aerospace series - Metallic materials - General organization of standardization - Links between types of EN standards and their use*

EN 4500-003, *Aerospace series - Metallic materials - Rules for drafting and presentation of material standards - Part 003: Specific rules for heat resisting alloys*

EN 4700-004, *Aerospace series - Steel and heat resisting alloys - Wrought products - Technical specification - Part 004: Wire*

Material designation		Heat resisting nickel base alloy NiCr20Co3Fe3											
2	Chemical composition %	Element	C	Si	Mn	S	Co	Cr	Cu	Fe	Pb	Ti	Ni
		min.	0,08	–	–	–	–	18,0	–	–	–	0,20	Base
		max.	0,15	1,0	1,0	0,020	5,0	21,0	0,5	5,0	0,005	0,60	
3	Method of melting	Air or vacuum melted or air melted and vacuum refined or consumable electrode remelted											
4.1	Form	Wire											
4.2	Method of production	Cold drawn											
4.3	Limit dimension(s)	mm	$D \leq 10$										
5	Technical specification	EN 4700-004											

6.1	Delivery condition	Annealed and descaled or bright annealed										
	Heat treatment	$1\ 000\ ^\circ\text{C} \leq \theta \leq 1\ 050\ ^\circ\text{C}$ / AC or WQ or cool in protective atmosphere										
6.2	Delivery condition code	U										
7	Use condition	Delivery condition										
	Heat treatment	–										

Characteristics

8.1	Test sample(s)	See EN 4700-004.											
8.2	Test piece(s)	See EN 4700-004.											
8.3	Heat treatment	Use condition											
9	Dimensions concerned	mm	$D \leq 10$										
10	Thickness of cladding on each face	%	–										
11	Direction of test piece	L											
12	Temperature	θ	$^\circ\text{C}$	Ambient									
13	Proof stress	$R_{p0,2}$	MPa	–									
14	T	Strength	R_m	MPa	≥ 690								
15		Elongation	A	%	≥ 25								
16		Reduction of area	Z	%	–								
17		Hardness	–										
18	Shear strength	R_c	MPa	$\leq 440^a$									
19	Bending	k	–	–									
20	Impact strength	–											
21	Temperature	θ	$^\circ\text{C}$	–									
22	Time	h		–									
23	Stress	σ_a	MPa	–									
24	C	Elongation	a	%	–								
25		Rupture stress	σ_R	MPa	–								
26		Elongation at rupture	A	%	–								
27	Notes (see line 98)	a											

36	Reverse torsion test	–	See EN 4700-004.
		7	$D \leq 10$ mm; Seven turns in each direction
43	Wrapping test	–	See EN 4700-004.
44	External defects	–	See EN 4700-004.
51	Macrostructure	–	See EN 4700-004.
95	Marking inspection	–	See EN 4700-004.
96	Dimensional inspection	–	See EN 4700-004
98	Notes	–	^a Determined on one sample per batch in accordance with EN 3238.
99	Typical use	–	–

100	-	Product qualification	-	See EN 2043.
				Qualification programme to be agreed between manufacturer and purchaser.

British Standards Institution (BSI)

BSI is the national body responsible for preparing British Standards and other standards-related publications, information and services.

BSI is incorporated by Royal Charter. British Standards and other standardization products are published by BSI Standards Limited.

About us

We bring together business, industry, government, consumers, innovators and others to shape their combined experience and expertise into standards-based solutions.

The knowledge embodied in our standards has been carefully assembled in a dependable format and refined through our open consultation process. Organizations of all sizes and across all sectors choose standards to help them achieve their goals.

Information on standards

We can provide you with the knowledge that your organization needs to succeed. Find out more about British Standards by visiting our website at bsigroup.com/standards or contacting our Customer Services team or Knowledge Centre.

Buying standards

You can buy and download PDF versions of BSI publications, including British and adopted European and international standards, through our website at bsigroup.com/shop, where hard copies can also be purchased.

If you need international and foreign standards from other Standards Development Organizations, hard copies can be ordered from our Customer Services team.

Subscriptions

Our range of subscription services are designed to make using standards easier for you. For further information on our subscription products go to bsigroup.com/subscriptions.

With **British Standards Online (BSOL)** you'll have instant access to over 55,000 British and adopted European and international standards from your desktop. It's available 24/7 and is refreshed daily so you'll always be up to date.

You can keep in touch with standards developments and receive substantial discounts on the purchase price of standards, both in single copy and subscription format, by becoming a **BSI Subscribing Member**.

PLUS is an updating service exclusive to BSI Subscribing Members. You will automatically receive the latest hard copy of your standards when they're revised or replaced.

To find out more about becoming a BSI Subscribing Member and the benefits of membership, please visit bsigroup.com/shop.

With a **Multi-User Network Licence (MUNL)** you are able to host standards publications on your intranet. Licences can cover as few or as many users as you wish. With updates supplied as soon as they're available, you can be sure your documentation is current. For further information, email bsmusales@bsigroup.com.

BSI Group Headquarters

389 Chiswick High Road London W4 4AL UK

Revisions

Our British Standards and other publications are updated by amendment or revision.

We continually improve the quality of our products and services to benefit your business. If you find an inaccuracy or ambiguity within a British Standard or other BSI publication please inform the Knowledge Centre.

Copyright

All the data, software and documentation set out in all British Standards and other BSI publications are the property of and copyrighted by BSI, or some person or entity that owns copyright in the information used (such as the international standardization bodies) and has formally licensed such information to BSI for commercial publication and use. Except as permitted under the Copyright, Designs and Patents Act 1988 no extract may be reproduced, stored in a retrieval system or transmitted in any form or by any means – electronic, photocopying, recording or otherwise – without prior written permission from BSI.
