Aerospace series — Cable outlet accessories for circular and rectangular electrical and optical connectors

Part 008: Cable outlet, self-locking, style C, 45°, shielded (cone grounding), unsealed with clamp strain relief — Product standard

ICS 49.060

National foreword

This British Standard is the UK implementation of EN 3660-008:2010.

The UK participation in its preparation was entrusted to Technical Committee ACE/6, Aerospace avionic electrical and fibre optic technology.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 31 May 2010.

EN 3660-008

April 2010

ICS 49.060

English Version

Aerospace series - Cable outlet accessories for circular and rectangular electrical and optical connectors - Part 008: Cable outlet, self-locking, style C, 45°, shielded (cone grounding), unsealed with clamp strain relief - Product standard

Série aérospatiale - Accessoires arrière pour connecteurs circulaires et rectangulaires électriques et optiques - Partie 008: Raccord type C, coudé à 45°, non étanche, autofreinant avec reprise de blindage (par cône) et brides serrecâble - Norme de produit

Luft- und Raumfahrt - Endgehäuse für elektrische und optische Rund- und Rechtecksteckverbinder - Teil 008: Endgehäuse, selbstsichernd, Bauform C, 45° Ausführung, Schirmanschluß (Konusring), nicht abgedichtet, mit Zugentlastungsklemme - Produktnorm

This European Standard was approved by CEN on 11 April 2007.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This document (EN 3660-008:2010) has been prepared by the Aerospace and Defence Industries Association of Europe - Standardization (ASD-STAN).

After enquiries and votes carried out in accordance with the rules of this Association, this Standard has received the approval of the National Associations and the Official Services of the member countries of ASD, prior to its presentation to CEN.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by October 2010, and conflicting national standards shall be withdrawn at the latest by October 2010.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN [and/or CENELEC] shall not be held responsible for identifying any or all such patent rights.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and the United Kingdom.

Scope

This product standard defines a range of cable outlets, style C, anti-decoupling, 45°, shielded (cone grounding), unsealed with clamp strain relief for use under the following conditions:

The cable outlet permits the termination of individual and/or overall screens for thickness from 0,8 mm to 4,8 mm.

Associated electrical connector(s): EN 3660-002

Temperature Range, Class N : -65 °C to 200 °C;

> Class W : - 65 °C to 175 °C: Class K : -65 °C to 260 °C.

Normative references

The following referenced documents are indispensable for the application of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

Terms and definitions

For the purposes of this document, the terms and definitions given in EN 3660-001:2006 apply.

Characteristics

Dimensions and mass

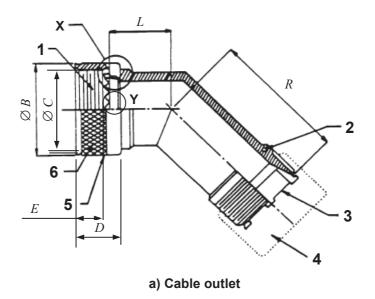

For dimensions and mass see Figure 1 and Table 1.

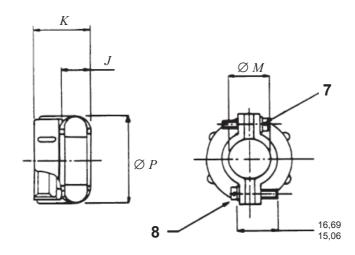

For interface dimensions see 4.2.

All dimensions in millimetres.

¹⁾ As well as all its parts quoted in this standard.

²⁾ Published by: Society of Automotive Engineers, Inc. (SAE), 400 Commonwealth Drive, Warrendale, PA 15096-0001.

b) Clamp forms integral part of the cable outlet assembly

Key

- 1 Thread A
- 2 Three equally spaced holes for max. 0,80 mm lockwire (optional)
- 3 Cone grounding
- 4 Clamp
- 5 Anti-decoupling device
- 6 Knurl
- 7 Hole to accommodate max. 0,80 mm lockwire
- 8 Screw and lockwasher
- NOTE 1 For details X and Y see 4.2.2.
- NOTE 2 Coupling nut to be captive on cable outlet body but free to rotate and shall have an anti-decoupling device.

 $^{{\}it E}$ dimension is taken when the coupling nut is pulled in forward position.

Interface dimensions

4.2.1 Associated connection

See EN 3660-002.

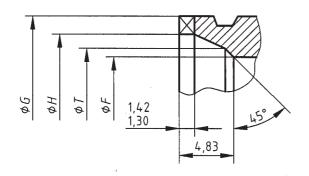

An allowance must be made for the thickness of the screen used.

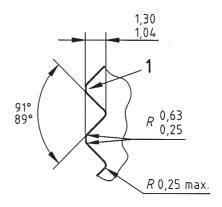

To be confirmed by manufacturers.

4.2.2 Modified AS85049 interface

See Figure 2, Figure 3 and Table 2.

All dimensions in millimetres.

Key

1 Number of teeth (see Table 2)

NOTE Valley of start tooth to be at vertical centre line of accessory at position shown:

Within ± 3° for shell sizes 08-12; Within ± 2° for shell sizes 14-18; Within ± 1° for shell sizes 20 and larger.

5 Designation

EXAMPLE 1

EXAMPLE 2

EN3660-008N08W Cable outlet style C, 45°, shielded (cone grounding), aluminium, electroless nickel, shell size 08, with wire lock holes.

NOTE 1 No gaps are required between sections in the part number when printed.

NOTE 2 If necessary, the code I9005 shall be placed between the description block and the identity block.

6 Marking

Refer to EN 3660-001 and Figure 1.

7 Technical specification

Refer to EN 3660-001.

BSI - British Standards Institution

BSI is the independent national body responsible for preparing British Standards. It presents the UK view on standards in Europe and at the international level. It is incorporated by Royal Charter.

Revisions

British Standards are updated by amendment or revision. Users of British Standards should make sure that they possess the latest amendments or editions.

It is the constant aim of BSI to improve the quality of our products and services. We would be grateful if anyone finding an inaccuracy or ambiguity while using this British Standard would inform the Secretary of the technical committee responsible, the identity of which can be found on the inside front cover. Tel: +44 (0)20 8996 9000. Fax: +44 (0)20 8996 7400.

BSI offers members an individual updating service called PLUS which ensures that subscribers automatically receive the latest editions of standards.

Buying standards

Orders for all BSI, international and foreign standards publications should be addressed to Customer Services. Tel: +44 (0)20 8996 9001. Fax: +44 (0)20 8996 7001 Email: orders@bsigroup.com You may also buy directly using a debit/credit card from the BSI Shop on the Website http://www.bsigroup.com/shop

In response to orders for international standards, it is BSI policy to supply the BSI implementation of those that have been published as British Standards, unless otherwise requested.

Information on standards

BSI provides a wide range of information on national, European and international standards through its Library and its Technical Help to Exporters Service. Various BSI electronic information services are also available which give details on all its products and services. Contact Information Centre. Tel: +44 (0)20 8996 7111 Fax: +44 (0)20 8996 7048 Email: info@bsigroup.com

Subscribing members of BSI are kept up to date with standards developments and receive substantial discounts on the purchase price of standards. For details of these and other benefits contact Membership Administration. Tel: +44 (0)20 8996 7002 Fax: +44 (0)20 8996 7001 Email: membership@bsigroup.com

Information regarding online access to British Standards via British Standards Online can be found at http://www.bsigroup.com/BSOL

Further information about BSI is available on the BSI website at http://www.bsigroup.com.

Copyright

Copyright subsists in all BSI publications. BSI also holds the copyright, in the UK, of the publications of the international standardization bodies. Except as permitted under the Copyright, Designs and Patents Act 1988 no extract may be reproduced, stored in a retrieval system or transmitted in any form or by any means — electronic, photocopying, recording or otherwise — without prior written permission from BSI.

This does not preclude the free use, in the course of implementing the standard, of necessary details such as symbols, and size, type or grade designations. If these details are to be used for any other purpose than implementation then the prior written permission of BSI must be obtained.

Details and advice can be obtained from the Copyright and Licensing Manager. Tel: +44 (0)20 8996 7070 Email: copyright@bsigroup.com
