

BS EN 3862:2013

BSI Standards Publication

**Aerospace series — Non-metallic materials — Glass transparencies — Material standard — Chemically tempered soda lime float glass**

**bsi.**

...making excellence a habit.™

**National foreword**

This British Standard is the UK implementation of EN 3862:2013.

The UK participation in its preparation was entrusted to Technical Committee ACE/65, Non-metallic materials for aerospace purposes.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

EUROPEAN STANDARD

**EN 3862**

NORME EUROPÉENNE

EUROPÄISCHE NORM

January 2013

ICS 49.025.99

English Version

**Aerospace series - Non-metallic materials - Glass  
transparencies - Material standard - Chemically tempered soda  
lime float glass**

Série aérospatiale - Matériaux non-métalliques -  
Transparents en verre - Norme de matériaux - Feuilles de  
verre sodo calcique flotté trempées chimiquement

Luft- und Raumfahrt - Nichtmetallische Werkstoffe -  
Transparente Glaswerkstoffe - Werkstoffnorm - Chemisch  
vorgespanntes Kalk-Natron-Floatglas

This European Standard was approved by CEN on 17 November 2012.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and United Kingdom.

## **Foreword**

This document (EN 3862:2013) has been prepared by the Aerospace and Defence Industries Association of Europe - Standardization (ASD-STAN).

After enquiries and votes carried out in accordance with the rules of this Association, this Standard has received the approval of the National Associations and the Official Services of the member countries of ASD, prior to its presentation to CEN.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by July 2013, and conflicting national standards shall be withdrawn at the latest by July 2013.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN [and/or CENELEC] shall not be held responsible for identifying any or all such patent rights.

According to the CEN/CENELEC Internal Regulations, the national standards organisations of the following countries are bound to implement this European Standard: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.

## **Introduction**

This standard is part of the series of EN non-metallic materials standards for aerospace applications. The general organisation of this series is described in EN 4385. This standard is a level 3 document as defined in EN 4385. It has been prepared in accordance with TR 7000-5.

## 1 Scope

This European Standard specifies the requirements relating to universally available and high light transmission, chemically tempered float glass plies, for aerospace applications.

## 2 Normative references

The following documents, in whole or in part, are normatively referenced in this document and are indispensable for its application. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

EN 3001, *Aerospace series — Tempered float glass plies for aircraft applications — Technical specification* <sup>1)</sup>

EN 4385, *Aerospace series — Non-metallic materials — General organisation of standardisation — Links between types of standards* <sup>1)</sup>

TR 7000-5, *Aerospace series — Non-metallic materials — Rules for the drafting and presentation of material standards — Part 5: Glass transparencies* <sup>2)</sup>

## 3 Definitions, symbols and abbreviations

### 3.1 Definitions

For the purposes of this document the following definitions apply:

#### 3.1.1 Definition of subcase numbering

In the column "requirement" at the left hand side a subcase number is given. The meaning of these subcase numbers is as follows:

Subcase number	Definition
–	Technical specification
1	Test method
2	Frequency of testing
3	Sample type
4	Test piece definition
5	Conditioning of test piece
6	Testing condition
7	Acceptance criteria

---

1) Published as ASD-STAN Prestandard at the date of publication of this standard ([www.asd-stan.org](http://www.asd-stan.org)).

2) Published as ASD-STAN Technical Report at the date of publication of this standard ([www.asd-stan.org](http://www.asd-stan.org)).

Note 1 to entry: The absence of a subcase indicates that the necessary information is given in Table 1 of this standard, e.g. in the reference to the technical standard (characteristic 1.004).

All the necessary information which does not appear is to be found in the referenced technical specification or the relevant test method.

Note 2 to entry: In this material standard, batch acceptance test titles and subcases 7 acceptance criteria are highlighted in the form of a bold frame and bold characters to show that they are mandatory for routine acceptance of the material.

### **3.1.2 Type A**

Universally available float glass

### **3.1.3 Type B**

High light transmission float glass

### **3.1.4 Other definitions**

See EN 3001.

## **4 Requirements**

The required characteristics are given in:

- Table 1 — General requirements;
- Table 2 — Requirements in the delivery condition;
- Table 3 — Requirements as processed to characteristic number 1.013;
- Table 4 — Environmental testing requirements as processed to characteristic number 1.013.

Table 1 — General requirements

Characteristic number	Characteristic	Requirements				
1.001	Material description	Glass transparency				
1.002	Formulation	Soda-lime glass, see EN 3001.				
1.003	Form and method of production	Chemically tempered float glass				
1.004	Technical specification	See EN 3001.				
1.005	Grade	A03	A04	A05	A06	A08
	Type	A	A	A	A	A
	Thickness mm	$0 < t \leq 3$	$3 < t \leq 4$	$4 < t \leq 5$	$5 < t \leq 6$	$6 < t \leq 8$
	Grade	A10	A12	A15	A19	B08
	Type	A	A	A	A	B
	Thickness mm	$8 < t \leq 10$	$10 < t \leq 12$	$12 < t \leq 15$	$15 < t \leq 19$	$0 < t \leq 8$
1.010	Storage	Suitable conditions, avoiding surface condensation				
1.011	Shelf life	Not applicable				
1.013	Processing condition	Supplied in final condition of use				
1.093	Quality assurance	See EN 3001.				
1.094	Designation	EN 3862 + grade (according to 1.005)				
1.098	Health and safety	See EN 3001.				
1.999	Notes					

Table 2 — Requirements in the delivery condition

Characteristic number	Characteristic	Requirements						
2.110	Dimensional tolerance	7	See EN 3001.					
2.110	Flatness	7	mm/m	See EN 3001.				
2.111	Light transmission — all types	6	Visible range					
		7	%	A03	A04	A05	A06	A08
				> 89	> 88,2	> 87,3	> 86,4	> 84,6
		7	%	A10	A12	A15	A19	B08
> 82,8	> 81,2			> 78,2	> 74,9	> 90,5		
2.111	Light transmission — type B glass	6	At 800 nm					
		7	%	B08				
				> 80,7				
2.111	Optical distortion	7	See EN 3001.					
3.111	Refractive index	7	n	1,52 ± 0,01				
2.111	Haze	7	%	≤ 1				
2.111	Optical defects	7	See EN 3001.					
2.301	Density	7	g/cm <sup>3</sup>	2,50 ± 0,02				
2.303	Linear expansion	7	10 <sup>-7</sup> /K	88,5 ± 3,5				
2.308	Surface compression stress	7	MPa	Shall comply with the limits agreed during product qualification.				
2.311	Modulus of rupture	7	MPa	Shall comply with the limits agreed during product qualification.				
2.999	Notes							

Table 3 — Requirements as processed to characteristic number 1.013

No requirement - refer to Table 2

Table 4 — Environmental testing requirements as processed to characteristic number 1.013

No requirement

# British Standards Institution (BSI)

BSI is the national body responsible for preparing British Standards and other standards-related publications, information and services.

BSI is incorporated by Royal Charter. British Standards and other standardization products are published by BSI Standards Limited.

## About us

We bring together business, industry, government, consumers, innovators and others to shape their combined experience and expertise into standards-based solutions.

The knowledge embodied in our standards has been carefully assembled in a dependable format and refined through our open consultation process. Organizations of all sizes and across all sectors choose standards to help them achieve their goals.

## Information on standards

We can provide you with the knowledge that your organization needs to succeed. Find out more about British Standards by visiting our website at [bsigroup.com/standards](http://bsigroup.com/standards) or contacting our Customer Services team or Knowledge Centre.

## Buying standards

You can buy and download PDF versions of BSI publications, including British and adopted European and international standards, through our website at [bsigroup.com/shop](http://bsigroup.com/shop), where hard copies can also be purchased.

If you need international and foreign standards from other Standards Development Organizations, hard copies can be ordered from our Customer Services team.

## Subscriptions

Our range of subscription services are designed to make using standards easier for you. For further information on our subscription products go to [bsigroup.com/subscriptions](http://bsigroup.com/subscriptions).

With **British Standards Online (BSOL)** you'll have instant access to over 55,000 British and adopted European and international standards from your desktop. It's available 24/7 and is refreshed daily so you'll always be up to date.

You can keep in touch with standards developments and receive substantial discounts on the purchase price of standards, both in single copy and subscription format, by becoming a **BSI Subscribing Member**.

**PLUS** is an updating service exclusive to BSI Subscribing Members. You will automatically receive the latest hard copy of your standards when they're revised or replaced.

To find out more about becoming a BSI Subscribing Member and the benefits of membership, please visit [bsigroup.com/shop](http://bsigroup.com/shop).

With a **Multi-User Network Licence (MUNL)** you are able to host standards publications on your intranet. Licences can cover as few or as many users as you wish. With updates supplied as soon as they're available, you can be sure your documentation is current. For further information, email [bsmusales@bsigroup.com](mailto:bsmusales@bsigroup.com).

## BSI Group Headquarters

389 Chiswick High Road London W4 4AL UK

## Revisions

Our British Standards and other publications are updated by amendment or revision.

We continually improve the quality of our products and services to benefit your business. If you find an inaccuracy or ambiguity within a British Standard or other BSI publication please inform the Knowledge Centre.

## Copyright

All the data, software and documentation set out in all British Standards and other BSI publications are the property of and copyrighted by BSI, or some person or entity that owns copyright in the information used (such as the international standardization bodies) and has formally licensed such information to BSI for commercial publication and use. Except as permitted under the Copyright, Designs and Patents Act 1988 no extract may be reproduced, stored in a retrieval system or transmitted in any form or by any means – electronic, photocopying, recording or otherwise – without prior written permission from BSI.
