

Industrial valves — End-to-end and centre- to-end dimensions for butt welding end valves

ICS 23.060.01

National foreword

This British Standard is the UK implementation of EN 12982:2009. It supersedes BS EN 12982:2000 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee PSE/18/1, Valves - Basic standards.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 31 January 2010.

**Industrial valves - End-to-end and centre-to-end dimensions for
butt welding end valves**

Robinetterie industrielle - Dimensions entre extrémités et
d'extrémité à axe des appareils de robinetterie à souder en
bout

Industriearmaturen - Baulängen für Armaturen mit
Anschweißenden

This European Standard was approved by CEN on 17 July 2009.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This document (EN 12982:2009) has been prepared by Technical Committee CEN/TC 69 "Industrial valves", the secretariat of which is held by AFNOR.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by February 2010, and conflicting national standards shall be withdrawn at the latest by February 2010.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN [and/or CENELEC] shall not be held responsible for identifying any or all such patent rights.

This document supersedes EN 12982:2000.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Bulgaria, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and the United Kingdom.

Introduction

The basic series given in this European Standard are taken from the original series shown in Annex A. Changes made to the original series will not be automatically incorporated into this European Standard.

The progress in work in the standardization of the different products may require a revision of this European Standard by adding or subtracting some basic series.

1 Scope

This European Standard specifies the end-to-end and centre-to-end dimensions for steel butt-welding end valves with connecting dimensions of welding ends in compliance with EN 12627, used in PN and Class designated piping systems.

The range of PN is:

- PN 10; PN 16; PN 25; PN 40; PN 63; PN 100; PN 160; PN 250; PN 320; PN 400.

The range of Class is:

- Class 150, Class 300, Class 600, Class 900, Class 1 500, Class 2 500.

The range of nominal size is:

- DN 8; DN 10; DN 15; DN 20; DN 25; DN 32; DN 40; DN 50; DN 65; DN 80; DN 100; DN 125; DN 150; DN 200; DN 250; DN 300; DN 350; DN 400; DN 450; DN 500; DN 600; DN 700; DN 750; DN 800; DN 900; DN 1 000; DN 1 200.

NOTE 1 DN 750 is not applicable to PN designated valves.

NOTE 2 See Annex B for the relationship between nominal size (DN) and nominal pipe size (NPS).

NOTE 3 Valves having welding end profiles different from those specified in EN 12627, may use the same dimensions than those specified in Table 1.

2 Normative references

The following referenced documents are indispensable for the application of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

EN 736-1:1995, *Valves — Terminology — Part 1: Definition of types of valves*

EN 736-2:1997, *Valves — Terminology — Part 2: Definition of components of valves*

3 Terms and definitions

For the purposes of this document, the terms and definitions given in EN 736-1:1995 and EN 736-2:1997 and the following apply.

3.1

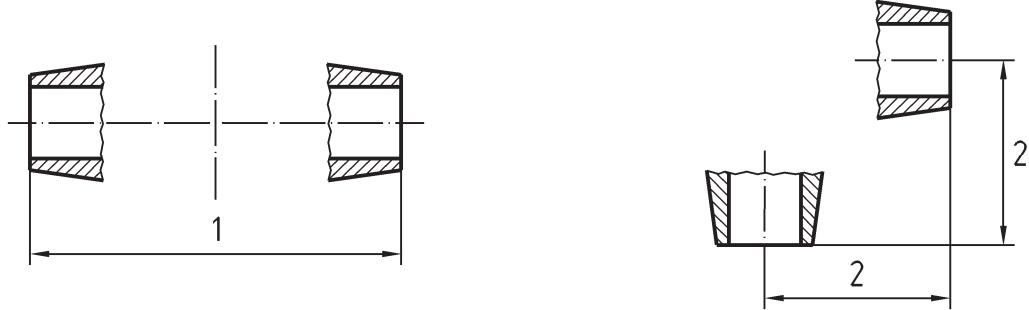

end-to end dimensions (ETE)

distance expressed between the ends of the body for straight pattern valves other than those with flanged ends

3.2

centre-to-end dimensions (CTE)

distance expressed between one of the ends of the body and the centre of the body for angle pattern valves other than those with flanged ends

a) Straight and oblique pattern valve

b) Angle pattern valve

Key

- 1 ETE
2 CTE

Figure 1 – ETE and CTE dimensions

4 Dimensions and tolerances

4.1 Basic series

The basic series of ETE and CTE dimensions are given in Table 1.

For each type of valve, the basic series to be taken into consideration shall be in accordance with Tables 3 to 12.

NOTE 1 Table 1 gives complete series. In Tables 3 to 12 the columns of series may be reduced.

NOTE 2 For certain sizes/types of valves, alternative dimensions are permitted and are specified in Tables 3 to 12.

NOTE 3 Basic series numbers are corresponding to the basic series given in EN 558.

4.2 Tolerances

Tolerances on ETE and CTE dimensions shall be in accordance with Table 2.

^a CTE dimensions for angle pattern valves.

Table 2 — Tolerances

Dimensions in millimetres

ETE or CTE dimension		Tolerance
above	up to and including	
0	250	± 2
250	500	± 3
500	800	± 4
800	1 000	± 5
1 000	1 600	± 6
1 600	2 500	± 8

Table 3 — Gate valves

PN/Class	ETE series															
	4	5	15	26	33	54	55	56	60	61	69	70	71	90	102	103
PN 10 — PN 16			X						X	X						
PN 25 — PN 40	X		X ^b	X ^c					X ^a							
PN 63 — PN 100		X		X	X									X		
PN 160						X					X			X	X	
PN 250 — PN 320							X					X		X ^d	X ^d	X
PN 400								X					X		X	X
Class 150			X							X	X					
Class 300	X		X	X					X							
Class 600		X		X	X									X		
Class 900						X					X			X	X	
Class 1 500							X							X	X	X
Class 2 500								X					X		X	X

^a Alternative ETE dimensions are 190 (DN 40); 787 (DN 600).

^b For PN 25 only.

^c For PN 40 only.

^d For PN 250 only.

Table 4 — Plug valves

PN/Class	ETE series						
	5	54	55	56	62	67	68
PN 10 — PN 16					X	X	X
PN 25 — PN 40					X ^a	X	X
PN 63 — PN 100	X ^{b, c}					X	X
PN 160		X ^{d, e}					
PN 250 — PN 320			X ^{f, g}				
PN 400				X			
Class 150					X	X	X
Class 300					X ^a	X	X
Class 600	X ^{b, c}					X	X
Class 900		X ^{d, e}					
Class 1 500			X ^{f, g}				
Class 2 500				X			

^a Dimensions for DN 50, 65, 80, 100 are for short pattern only.
^b Dimensions for DN 450, 500, 600 are for venturi pattern only.
^c Dimensions for DN 25, 32 are for regular pattern only.
^d Dimension for DN 100 is for venturi pattern only.
^e Dimensions for DN 25, 32, 40, 50, 65, 80 are for regular pattern only.
^f Dimension for DN 400 is for venturi pattern only.
^g Dimensions for DN 25, 32, 40, 50, 65, 80, 100 are for regular pattern only.

Table 5 — Ball valves

PN/Class	ETE series									
	5	54	55	56	61	63	67	68	78	81
PN 10 — PN 16					X	X ^a	X	X	X	X
PN 25 — PN 40					X	X ^b	X	X		X
PN 63 — PN 100	X						X	X		
PN 160		X								
PN 250 — PN 320			X							
PN 400				X						
Class 150					X	X ^a	X	X	X	X
Class 300					X	X ^b	X	X		X
Class 600	X						X	X		
Class 900		X								
Class 1 500			X							
Class 2 500				X						

^a Alternative ETE dimensions are: 273 (DN 65); 310 (DN 80); 350 (DN 100).
^b Alternative ETE dimensions are: 403 (DN 150); 502 (DN 200); 568 (DN 250); 648 (DN 300).

Table 6 — Globe valves and lift check valves — straight and oblique patterns

PN/Class	ETE series																	
	1	5	10	21	26	54	55	56	64	65	69	70	71	84	85	88	89	90
PN 10 — PN 16	X		X						X									
PN 25 — PN 40	X			X ^c					X									
PN 63 — PN 100		X			X					X								X
PN 160					X				X	X			X					X
PN 250 — PN 320						X					X			X ^a	X	X		
PN 400							X					X		X ^a	X	X ^e		
Class 150	X		X ^b						X									
Class 300	X			X ^{c, d}					X									
Class 600		X			X					X								X
Class 900					X					X	X		X					X
Class 1 500						X						X		X ^a	X	X		
Class 2 500							X					X		X ^a	X	X		

^a Alternative ETE dimension is: 300 (DN 65).
^b For Class 150 lift check valves, use: 356 (DN 125); 406 (DN 150); 914 (DN 400).
^c DN 15 and DN 20 are for lift check valves only.
^d For Class 300 lift check valves, use: 203 (DN 25); 216 (DN 32); 229 (DN 40); 559 (DN 200).
^e Alternative ETE-dimension is 90 (DN 8, DN 10, DN 15).

Table 7 — Globe valves, and lift check valves — angle pattern

PN/Class	CTE series												
	8	9	11	24	32	57	58	59	82	83	86	87	93

BSI - British Standards Institution

BSI is the independent national body responsible for preparing British Standards. It presents the UK view on standards in Europe and at the international level. It is incorporated by Royal Charter.

Revisions

British Standards are updated by amendment or revision. Users of British Standards should make sure that they possess the latest amendments or editions.

It is the constant aim of BSI to improve the quality of our products and services. We would be grateful if anyone finding an inaccuracy or ambiguity while using this British Standard would inform the Secretary of the technical committee responsible, the identity of which can be found on the inside front cover. Tel: +44 (0)20 8996 9000. Fax: +44 (0)20 8996 7400.

BSI offers members an individual updating service called PLUS which ensures that subscribers automatically receive the latest editions of standards.

Buying standards

Orders for all BSI, international and foreign standards publications should be addressed to Customer Services. Tel: +44 (0)20 8996 9001. Fax: +44 (0)20 8996 7001 Email: orders@bsigroup.com You may also buy directly using a debit/credit card from the BSI Shop on the Website <http://www.bsigroup.com/shop>

In response to orders for international standards, it is BSI policy to supply the BSI implementation of those that have been published as British Standards, unless otherwise requested.

Information on standards

BSI provides a wide range of information on national, European and international standards through its Library and its Technical Help to Exporters Service. Various BSI electronic information services are also available which give details on all its products and services. Contact Information Centre. Tel: +44 (0)20 8996 7111 Fax: +44 (0)20 8996 7048 Email: info@bsigroup.com

Subscribing members of BSI are kept up to date with standards developments and receive substantial discounts on the purchase price of standards. For details of these and other benefits contact Membership Administration. Tel: +44 (0)20 8996 7002 Fax: +44 (0)20 8996 7001 Email: membership@bsigroup.com

Information regarding online access to British Standards via British Standards Online can be found at <http://www.bsigroup.com/BSOL>

Further information about BSI is available on the BSI website at <http://www.bsigroup.com>.

Copyright

Copyright subsists in all BSI publications. BSI also holds the copyright, in the UK, of the publications of the international standardization bodies. Except as permitted under the Copyright, Designs and Patents Act 1988 no extract may be reproduced, stored in a retrieval system or transmitted in any form or by any means – electronic, photocopying, recording or otherwise – without prior written permission from BSI.

This does not preclude the free use, in the course of implementing the standard, of necessary details such as symbols, and size, type or grade designations. If these details are to be used for any other purpose than implementation then the prior written permission of BSI must be obtained.

Details and advice can be obtained from the Copyright and Licensing Manager. Tel: +44 (0)20 8996 7070 Email: copyright@bsigroup.com
