Implementation of IEC 1009-2-2:1991

Specification for residual current operated circuit-breakers with integral overcurrent protection for household and similar uses (RCBO's) —

Part 2-2: Applicability of the general rules to RCBO's functionally dependent on line voltage

# Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee PEL/23, Circuit breakers and similar equipment for household use, upon which the following bodies were represented:

**ASTA Certification Services** 

Association of Consulting Engineers

Association of Control Manufacturers — TACMA (BEAMA Ltd.)

British Lawnmower Manufacturers' Federation

Consumer Policy Committee of BSI

Consumers' Association

Department of Trade and Industry (Consumer Safety Unit)

ERA Technology Ltd.

Electrical Installation Equipment Manufacturers' Association (BEAMA Ltd.)

**Electricity Association** 

Federation of the Electronics Industry

Institution of Electrical Engineers

Institution of Mechanical Engineers

National Inspection Council for Electrical Installation Contracting

National Quality Assurance

Portable Electric Tool Manufacturers' Association

This British Standard, having been prepared under the direction of the Electrotechnical Sector Board, was published under the authority of the Standards Board and comes into effect on 15 March 1995

### National foreword

This British Standard has been prepared by Technical Committee PEL/23 and is identical with IEC Publication 1009-2-2 Residual current operated circuit-breakers with integral overcurrent protection for household and similar uses (RCBO's) — Part 2-2: Applicability of the general rules to RCBO's functionally independent of line voltage.

This British Standard is one of a series in which the other publications are as follows:

BS EN 61009-1:1995, Residual current operated circuit-breakers with integral overcurrent protection for household and similar uses (RCBO's) — Part 1: General rules.

BS EN 61009-2-1:1995 Residual current operated circuit-breakers with integral overcurrent protection for household and similar use (RCBO's) — Part 2-1: Applicability of the general rules to RCBO's functionally independent of line voltage.

Where reference is made to "Part 1", this should be taken to mean "BS EN 61009-1".

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

### Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 and 2, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

ii © BSI 01-2000

### Introduction

This part of IEC 1009 supplements or modifies the corresponding clauses in IEC 1009-1 to cover its applicability to RCBO's functionally dependent on line voltage.

### 1 Scope

This clause of Part 1 is applicable.

### 2 Normative references

This clause of Part 1 is applicable.

### 3 Definitions

This clause of Part 1 is applicable.

### 4 Classification

This clause of Part 1 is applicable.

### 5 Characteristics of RCBO's

This clause of Part 1 is applicable.

## 6 Marking and other product information

This clause of Part 1 is applicable.

## 7 Standard conditions for operation in service and for installation

This clause of Part 1 is applicable.

# 8 Requirements for construction and operation

This clause of Part 1 is applicable.

#### 9 Tests

This clause of Part 1 is applicable.

#### **Figures**

The figures of Part 1 are applicable.

#### Annexes

The annexes of Part 1 are applicable.

### **BSI** — British Standards Institution

BSI is the independent national body responsible for preparing British Standards. It presents the UK view on standards in Europe and at the international level. It is incorporated by Royal Charter.

#### Revisions

British Standards are updated by amendment or revision. Users of British Standards should make sure that they possess the latest amendments or editions.

It is the constant aim of BSI to improve the quality of our products and services. We would be grateful if anyone finding an inaccuracy or ambiguity while using this British Standard would inform the Secretary of the technical committee responsible, the identity of which can be found on the inside front cover. Tel: 020 8996 9000. Fax: 020 8996 7400.

BSI offers members an individual updating service called PLUS which ensures that subscribers automatically receive the latest editions of standards.

### **Buying standards**

Orders for all BSI, international and foreign standards publications should be addressed to Customer Services. Tel: 020 8996 9001. Fax: 020 8996 7001.

In response to orders for international standards, it is BSI policy to supply the BSI implementation of those that have been published as British Standards, unless otherwise requested.

#### Information on standards

BSI provides a wide range of information on national, European and international standards through its Library and its Technical Help to Exporters Service. Various BSI electronic information services are also available which give details on all its products and services. Contact the Information Centre. Tel: 020 8996 7111. Fax: 020 8996 7048.

Subscribing members of BSI are kept up to date with standards developments and receive substantial discounts on the purchase price of standards. For details of these and other benefits contact Membership Administration. Tel: 020 8996 7002. Fax: 020 8996 7001.

### Copyright

Copyright subsists in all BSI publications. BSI also holds the copyright, in the UK, of the publications of the international standardization bodies. Except as permitted under the Copyright, Designs and Patents Act 1988 no extract may be reproduced, stored in a retrieval system or transmitted in any form or by any means – electronic, photocopying, recording or otherwise – without prior written permission from BSI.

This does not preclude the free use, in the course of implementing the standard, of necessary details such as symbols, and size, type or grade designations. If these details are to be used for any other purpose than implementation then the prior written permission of BSI must be obtained.

If permission is granted, the terms may include royalty payments or a licensing agreement. Details and advice can be obtained from the Copyright Manager. Tel: 020 8996 7070.
