Agricultural vehicles — Mechanical connections on towed vehicles —

Part 2:
Coupling ring 40 with socket

TECHNICAL CORRIGENDUM 1

Véhicules agricoles — Liaisons mécaniques sur véhicules remorqués — Partie 2: Anneau d'attelage 40 avec douille
RECTIFICATIF TECHNIQUE 1

Technical Corrigendum 1 to ISO 5692-2:2002 was prepared by Technical Committee ISO/TC 23, *Tractors and machinery for agriculture and forestry*, Subcommittee SC 4, *Tractors*.

Page iii, Foreword

Replace the text of the Foreword with the following (the new text is highlighted), thereby completing and updating it, inserting reference to ISO 20019 and extended reference to ISO 5692-1.

“ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

International Standards are drafted in accordance with the rules given in the ISO/IEC Directives, Part 3.

The main task of technical committees is to prepare International Standards. Draft International Standards adopted by the technical committees are circulated to the member bodies for voting. Publication as an International Standard requires approval by at least 75 % of the member bodies casting a vote.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. ISO shall not be held responsible for identifying any or all such patent rights.

ISO 5692-2 was prepared by prepared by Technical Committee ISO/TC 23, *Tractors and machinery for agriculture and forestry*, Subcommittee SC 4, *Tractors*.

This first edition of ISO 5692-2, together with ISO 5692-1:2004 and ISO 20019:2001, cancels and replaces ISO 5692:1979, of which it constitutes a technical revision.

ISO 5692 consists of the following parts, under the general title *Agricultural vehicles — Mechanical connections on towed vehicles*:

- Part 1: Dimensions for hitch rings of 50/30 cross section
- Part 2: Coupling ring 40 with socket”
